

Mosman Church of England Preparatory School

11 September 2024

To whom it may concern,

Mosman Preparatory School required a new Fire Services Company to service and maintain our fire equipment on site. I engaged Graham Thomas from EPM Facilities Management to run a tender with up to 7 companies and I am very happy with the result.

It was great being able to utilise an experienced Facility Manager to run the tender process on our behalf. Grahams "Lite" version of the tender process was a great fit for our scale of site and contractors. I would not hesitate to reach out again when reviewing our contractors or suppliers.

Graham communicated clearly throughout and at the end of the process provided us a recommendation with reasoning. This process delivered an unbiased comparison between suppliers, provided market value, highlighted gaps and risks with each supplier and enabled me to make an informed decision for Mosman Prep to move forward with.

Graham managed the project on time and within budget. It has been great finally having a professional FM consultancy to reach out to on an as needs basis. I will be calling on EPM Facilities Management again as the needs arise and would be very happy to recommend Graham to any potential clients that may be interested in the services he and EPM provides.

Warm regards,

Liza Campbell
Business Manager
